Partial List of Transactions Available:

- ✓ Work Order Pick & ship.
- ✓ Work Order Receipt.
- ✓ Delivery note picking with reports.
- ✓ Item Lookup.
- ✓ Cycle Count.
- ✓ Transfer.

SAP Business One Success Story:

"When a customer approached us about integrating into their SAP Business One software, they were concerned that the costs would outweigh the benefits of the project. Our *QuikTrac* software tools gave them a solution that allowed them to pick items for an order and hold them until the whole order was complete. Once ready to ship, *QuikTrac* then processes the delivery note confirmation transaction in real-time. The customization cost alone to have this done would have cost more than the whole project! We had their project up in running in no time saving them thousands!"
